

Rotary Bolivia Trip

Two Options for travel Dates: March 25th to April 8th, 2017 (+/- Depending on your travel or side trip options)
June 9th to June 18th, 2017

Come join us on an adventure visiting our Rotary International Projects in Bolivia. We are planning to travel to Bolivia March 25th to April 8th, and June 9th to June 18th, 2017; to visit water reservoir projects, road construction projects, and medical clinics near Sucre and Cochabamba Bolivia; and view future project opportunities with our Bolivian partner Mano a Mano International. We have had great success assisting the communities with medical care and water resources in the past with our Rotary projects and have received wonderful receptions from the Bolivian people. Experience the people, culture and the Cordillera Real Mountains with potential side trips including Machu Picchu, Uyuni salt flats, Potosi Cerro Rico mine, Cretaceous Park in Sucre, Santa Cruz and other historic, religious and cultural sites. If you are interested or would like more information please contact.
